

🚀 AI Implementation Engineer Intern (1 Year)

Rocketlane

Location: Chennai | Eligibility: 4th-year CS students

What you'll work on:

- ⚙️ AI-powered workflows and process automation
- 💻 Modern coding tools like Claude, Cursor, Replit
- 🤝 Customer implementations and system integrations
- 💰 Solving real business problems with scalable solutions

What we're looking for:

- 💡 Strong programming skills (Python, Java, C++, etc.)
- 🧠 AI-awareness and interest in machine learning concepts
- 🔍 Proven problem-solving mindset and analytical thinking
- 🚀 Builder mentality: proactively creating and iterating
- 💬 Excellent communication and collaboration skills

Apply if you like building, learning, and talking to people — not just writing code
